

SCVi
RECORDS RETENTION AND DISPOSAL
POLICY Board Approved: December 15, 2021

I. Purpose

SCVi a public charter school operated by a nonprofit corporation (collectively referred to as the “School”), maintains records both in electronic and paper form. The purpose of this Records Retention and Disposal Policy (“Policy”) is to ensure that necessary records of the School are maintained in accordance with applicable law, and to ensure that records no longer needed by the School or that are of no value are appropriately discarded at the proper time. This Policy should aid administrators, employees, volunteers, and board members (sometimes referred to herein as “you”) in understanding their obligations in maintaining and appropriately disposing the School’s records.

II. School Records

The School’s records include those produced by School’s administrators, employees, volunteers, and board members, both in electronic and paper form, when acting in the course and scope of their roles at the School. This Policy applies to all physical records generated in the course of the School’s operations, and also applies to electronic documents (including emails, text messages, instant messages) that are related to the School’s business. Electronically stored information is subject to the same retention schedule as paper documents. The retention period of electronically stored information depends on its content.

III. Record Retention

The School’s Records Retention Schedule (“RRS”), attached as **Appendix A**, lists numerous categories of records, with retention periods for each. Not all records need to be retained, and records should not be retained for longer than is necessary for the proper conduct and functioning of the School.

Federal and state laws require the School to maintain certain types of records for particular periods. Failure to maintain such records could subject the School to penalties and fines, obstruct justice, affect evidence, and/or seriously harm the School’s position in a tax or litigation matter. Thus, it is important you understand and comply with this Policy. If you are uncertain about any of the procedures set forth in this Policy (e.g., what records to retain or destroy, when to do so, and for how long), it is your responsibility to seek direction from the Administrator as identified below.

IV. How Records are Stored

Tangible Records

Tangible records are those which you must physically move to store, such as paper records (including records printed versions of electronically saved documents), photographs, and audio recordings. Active records that are retained as set forth in the RRS and need to be easily accessible may be stored at the School. Inactive tangible records that are retained as set forth in the RRS may be sent to an off-site storage facility.

Electronic Records

Electronic mail (“email”) that is required to be retained as set forth in the RRS should be either printed and stored as tangible records, or stored electronically. The School uses Google apps for Education (gmail) for email communications, which are then archived in Google Vault. Local files on desktops are to be stored supplied Google Drive unless IT has installed approved local backup.

V. Destruction/Deletion of Records

Tangible Records

Tangible records that are not required to be retained as set forth in the RRS should be destroyed by shredding or some other means that will render them unreadable. If you have a record that you do not know how to destroy, such as a photograph, compact disk, or tape recording, ask the advice of the Administrator.

Electronic Records

Email records that you “delete” may remain in the School’s system. Thus, the School’s information technology (“IT”) staff or vendor may permanently remove deleted emails from the computer system that are not required to be retained as set forth in the RRS. Keep in mind, where duplicate records are involved, both/all copies should be destroyed/deleted where proper. In certain cases, a document may be maintained in both paper and electronic form. In such cases, the electronic document may be the official document and the paper version may be destroyed if permitted under the law.

VI. Suspension of Record Disposal in the Event of Litigation or Audit

In the event the School is served with a document subpoena, or an employee becomes aware of a governmental investigation or audit concerning the School or any of its funding sources, or of the commencement of any litigation against or concerning the School, such employee shall inform the Administrator and any further disposal of documents shall be suspended until such time as the Administrator, with the advice of counsel, determines otherwise. The Administrator shall take such steps as is necessary to promptly inform all staff of any suspension in the further disposal of documents.

VII. Administration and Oversight

The School Director (the “Administrator”) and/or his or her designee is responsible for administering and implementing this Policy, including the implementation of processes to ensure the RRS is followed.

The Administrator is also authorized to, among other things: (i) make modifications to the RRS from time to time to ensure that it complies with local, state, and federal laws; (ii) monitor local, state, and federal laws affecting records retention; (iii) annually review the records retention and disposal program; and (iv) monitor compliance with this Policy. All questions relating to document retention and/or destruction should be directed to the Administrator.

To ensure compliance with this Policy, the Administrator is responsible for the following oversight functions:

- Overseeing the implementation of this Policy.
- Ensuring that appropriate School administrators, employees, volunteers, and board members are properly informed of, understand, and can follow this Policy and the RRS.
- Ensuring the School has systems in place for proper storage of documents. This includes working with the School’s IT staff to ensure that the School maintains a secure document

management system that provides for the storage, retrieval, archiving, and destruction of the School's documents, including electronically stored information such as emails. The document management system shall be designed to comply with state and federal laws regarding security of records, records retention and destruction, and response to "litigation hold" discovery requests.

- Providing oversight of actual retention and destruction/disposal of documents, as needed.
- Suspending destruction of documents upon actual or foreseeable litigation.
- Keeping appropriate administrators, employees, volunteers, and board members apprised of changes to this Policy or the RRS.

Permanent (if project specific, then for project duration)

E. CORRESPONDENCE AND INTERNAL MEMORANDA

General Principle: Key correspondence and internal memoranda should be retained for the same period as the document they pertain to or support. For instance, a letter pertaining to a particular contract would be retained as long as the contract (7 years after expiration). It is recommended that records that support a particular project be kept with the project and take on the retention time of that particular project file.

Correspondence or memoranda that do not pertain to documents having a prescribed retention period, or draft correspondence or memoranda, should generally be discarded sooner. These may be divided into two general categories:

1. Those pertaining to routine matters and having no significant, lasting consequences should be discarded at any time and at least *within two years*. Some examples include:
 - Routine letters and notes that require no acknowledgment or follow-up, such as notes of appreciation, congratulations, letters of transmittal, and plans for meetings.
 - Form letters that require no follow-up.
 - Letters of general inquiry and replies that complete a cycle of correspondence.
 - Letters or complaints requesting specific action that have no further value after changes are made or action taken (such as name or address change).
 - Other letters of inconsequential subject matter or that definitely close correspondence to which no further reference will be necessary.
 - Chronological correspondence files.

Please note that copies of interoffice correspondence and documents where a copy will be in the originating department file should be read and destroyed, unless that information provides reference to or direction to other documents and must be kept for project traceability.

2. Those pertaining to non-routine matters or having significant lasting consequences should generally be retained permanently.

F. ELECTRONIC DOCUMENTS

1. **Electronic Mail:** Not all email needs to be retained, depending on the subject matter. If the content of an email requires it to be retained under any sections of this Policy, you are responsible for printing and storing the email as a tangible record, or storing the email electronically.
 - All email—from internal or external sources—may be deleted immediately by email users unless the content of the email requires it to be retained under any sections of this Policy. The length of time that an email should be retained should be based upon the content of the email and the category under the various sections of this Policy.
 - The School may archive email in Google Vault for purposes of data retention and eDiscovery purposes for up to one fiscal year beginning July 1 and ending June 30 of the year after the email was created. All emails not saved by the user and older than one fiscal school year after the year the email was created

may be deleted from the School email system, servers, backup servers, and any other electronic storage system as early as the first day of the subsequent fiscal year. The subsequent fiscal year is defined as beginning on July 1.

- Staff will strive to keep all of their email communication related to School issues.
- You will not store or transfer the School-related email on non-work-related computers except as necessary or appropriate for the School purposes.
- You will take care not to send confidential/proprietary information of the School to outside sources.

2. **Electronic Documents**, including Microsoft Office Suite and PDF files. Retention also depends on the subject matter.

- PDF documents – The length of time that a PDF file should be retained should be based upon the content of the file and the category under the various sections of this Policy.
- Text/formatted files – You will conduct annual reviews of all text/formatted files (e.g., Microsoft Word documents) and will delete all those you consider unnecessary or outdated.

3. **Web Page Files: Internet Cookies**

- All workstations: It is recommended that Internet browsers should be scheduled to delete Internet cookies once per month.

The School does not automatically delete electronic files beyond the dates specified in this Policy, but may do so at its discretion otherwise in accordance with this Policy. It is your responsibility to adhere to the guidelines specified in this Policy.
